interest of the regular ward organi- sioner.

zation. His energetic efforts in behalf of the Third ward organization without price or place soon attracted the attentoin of Congressman Martin B. Madden. The opportunity to reward Mr. De Priest for his splendid services in behalf of the Republican party and the Third ward organization came to Congressman Madden at the county convention in the spring of 1904, when he was nominated for the position of County Commissioner. In connection with his nomination there si a bit of unpublished history which demonstrated two things, namely, the strong friendship in which Congressman Madden held Mr. De Priest personally, and the determination to award recognition to the Negro portion of the ward. When the question of representation of the Third ward on the ticket came up for discussion in the caucus, so the story goes, Mr. Madden was allotted a judgeship. He insisted that in addition to that the ward was entitled to a Commissioner, but his protest fell upon deaf cars. Finally, seeing that his wishes in this latter regard would not be complied with, he unhesitatingly "turned down" the judgeship so that the colored citzens of the ward would be r conized by the nomination of a County Commissioner.

Since his induction into office Commissioner De Priest has been in the i forefront on all matters affecting the county's material interest. He is chairman of the very important committee of education and industrial schools, and a member of the committees on out-door relief, coroner and morgue, and the new court house committee, the latter having charge of the construction of the new court house, involing an expenditure of \$5,000,000.
